Subd 26/5/19

4) From the information now received it is seen that only 8 talks in the State have been appointed leaving out the City talks of Mysore & Bangalore Vaccn has been made Compulsory in a majority of rural areas in the State and it is evident that in these areas the services of the Dt Board vaccinators are being availed of. This is somewhat questionable policy So long as the State paid for the Services of the vaccinators, it did not matter which local body utilised their services, since all that the State aimed at was protection against the spread and appearance of Small pox Now under the G O of 9 3 1918, the vaccinators are made employees of Dt Boards and the talks are left to make their own arrangements It is just possible that the Dt Bds may object & the

Whereas the local subsist allowance is not available for [illegible]

Servants being employed on work in rul areas without receiving any contribution from the Loca Bodies of local bodies. Some satisfactory arr can therefore be made & safeguard vacc in rul areas

5) In para 6 of the order of 9 3 1910 it is said that each vaccinator is expected to do at least 200 cases a month. Even in the family populous villages of the state, it is not likely that there will be enough work for a whole time vaccinator It is therefore necessary to fix a limit of population in villages which should be compelled to entertain separate vaccinators of their own and arrange separately in other cases It is submitted that all Dist Hd quarter villages and all villages with a population of 10000 & over may be opened to entertain separate vaccinators In other cases, the Sub asst Surgeon of the local Hospital or the Dt Board vaccinator may be entrusted with this work, an allowance of Rs 10 or Rs 5/ being ~~paid out of~~ the local funds concerned In case the Sub asst Surgeon does the work, he may be given an allowance of Rs 5/- p m, while in the case of the Dt Bd vaccinator during the work, a contribution of a small amount may be ordered to be paid from Govt funds & Dt. funds

6) The Sanitary Commrs views may perhaps be obtained

R. S. III-2]

304

General and Revenue Secretariat | Gl File No. 195 of 1918

Serial No.

The Sanitary Commissioner is of the opinion that the minimum of 20 cases a month is much too high & that 31 primary vaccinations annually per 1000 of the population of the area in charge of the Vaccinator may be adopted as a standard in the case of municipalities that employ a full time Vaccinator -

He suggests further that all municipalities with a annual income of Rs 5000/ instead of Rs 7000/ may be required to employ a whole time vaccinator who will have sufficient work to do exclusively within municipal limits & that the municipal Vaccinators may also be made ex officio Registrars of births & deaths

Senior Surgeon's Office,

Bangalore 2nd July 1919

Dear Sir,

With reference to your letter No R 16961 Ml. 185-18, dated the 30th June 1919, I write to inform you that no Government Order is available in this office directing sub Assistant Surgeons in charge of Dispensaries to do vaccination work, a practice which has been in existence for a very very long time

I enclose a copy of this office Circular No 6245-53, dated 15th May 1905, on the subject, which in its turn supposes that the Sub Assistant Surgeons had been doing vaccination work as part of their regular duty, even prior to that date.

Yours sincerely,

B T. Kesava Iyengar Esq., B.A.,

185-18-12

DEAR SIR,

Your D.O. No.R. 16,962 Ml.185-18 dated the 30th June 1919. There is no Government Order directing that Sub Assistant Surgeons shall do vaccination in areas where special vaccinators have not been appointed. Under departmental circulars, copies of which are enclosed the vaccination work in urban areas was withdrawn from vaccinators and entrusted exclusively to Sub Assistant Surgeons, in 1908. Please also see para 7 of Government Order No.7553 San 98-09-5 dated the 25th February 1910 reviewing the annual report on vaccination for that year

Yours Sincerel

To

B. T. Kesavaiengar, Esq., B.A.,

Encl to Mdl 85-08-12

C I R C U L A R.

This Office circular No.1977-85 dated the 2nd January 1908 - - directing that Hospital Assistants working in the Local Fund or Municipal Dispensaries may be entrusted with Vaccination work in their stations

------ P ------

Has the honour to point out that by the above circular it was meant that the work of vaccination may be entrusted to Hospital Assistants as part of their regular duties It was never intended that the Hospital Assistants should attend to vaccination work neglecting their work in the Dispensaries as is reported to have been misapprehended by certain - - District Medical and Sanitary Officers. The D.M. and S.O's are therefore requested to see that the work of vaccination does not interfere with the other work of the Hospital Assistants and at the same time that the - - Hospital Assistants do take real interest in the important work of - - vaccination in their towns and show appreciably good results. As medical subordinates in charge of stations, they are more intimately known to the people than most others and the respect and confidence they generally command ought to help them in pushing on vaccination work more successfully than any body else and that without interfering with their other work. It would of course be convenient to them to do vaccination work in the Dispensaries. This may be done as a rule. A special time may be fixed for the work and the fact notified to the Public by means of a - Board showing the time, put up at the Dispensary as well as by beat of tom-tom or other means.

A circular is being issued to the Revenue Department asking that people may be required to go to the Dispensaries and get themselves - - vaccinated at these hours, but in cases where this is not possible or - - convenient, the Medical subordinates may visit the people and do the - - vaccination work in their houses. Hospital Assistants are at present - - visiting different parts of their towns for various reasons such as - -

LWS

supervision of sanitation in connection with prevention of plague and other epidemics and to treat private patients and it is hoped that it will be expedient for them to do some vaccination work during these or other visits, without in any way interfering with their Dispensary work. When on such visits they may also explain the advantage of vaccination and induce the patients and others to send their children to the Dispensary for the purpose of vaccination.

A weekly statement of work done by the Hospital Assistants may be required to be submitted to the District Medical and Sanitary - - Officer regularly and the figures may be compiled in that office and consolidated monthly statements of work done in urban areas forwarded to this office as per circular No.4182-70 dated 22-4-98.

To
the Dist medical and
Sanitary Officer of District

(Sd) H.E. Drake Brakeman,
Sanitary Commissioner.

"C O P Y"

Offg. Sanitary Commissioner.

Ento Mil 85-18-12 46

Docket No.1977-85 dated the 2nd January 1908 from the - - Sanitary Commissioner in Mysore to all the District Medical and Sanitary Officers.

---P---

In continuation of this office circular No.1872-81 dated the 14th December 1912 has the honour to state that in Municipal Towns - - where there are Local Fund Dispensaries it would be well if the Medical Subordinate in charge were entrusted with vaccination work as a part of his regular duties as is done in the Madras Presidency. The prestige which he usually enjoys as the Medical Officer of the area will undoubtedly, go a great way in rendering vaccination more popular than if only a Vaccinator were in charge of the work. Moreover, by this arrangement, the vaccinators will be relieved of much of their present work and may pay greater attention to rural areas and thereby be able to show - - better results.

Now that the vaccination Department has been placed under the District Medical and Sanitary Officer there need be no difficulty in giving effect to the above as Medical Subordinates may be held directly responsible to him with regard to the work done by them.

It is requested that the District Medical and Sanitary Officer will be so good as to put the scheme into effect at once and report on the results at the end of 6 months.

(Sd) P.Palpu.,

Deputy Sanitary Commissioner to Govt.,

Sanitary Commissioner's memo No.198A dated 2-1-1908.

Copy of the above is forwarded to the Senior Surgeon for information.

"C O P Y"

1st Senior Surgeon agrees?

Offg. Sanitary Commissioner.

Encl to GS=78-12 7

Office of Senior Surgeon Mysore Government.

No. 2946-54 Dated, Bangalore, 2nd December 1908.

c i r c u l a r.

In view of the small amount of vaccination work done by the Hospital Assistant in the various dispensaries and the complaint that some of them make that the people will not bring their children to the Dispensaries, Hospital Assistants are directed to set one morning a week apart for going round the village on Vaccination work- up till 9-30 A.M. after which they can do their Dispensary work.

2. A notice should be put up stating the day on which th Dispensary will not be open till 9-30 A.M. and the reason why it is closed.

Office of the Sanitary Commissioner with the
Government of Mysore

D O No Cgio 58

Dated Bangalore 15th August 1919

Dear Sir,

Your D.O. No.2162 of the 9th Instant. The minimum of 200 cases is much too high. I think that under existing conditions, we might be satisfied with one-third this number. I would propose that all Municipalities with a normal income of Rs. 5,000, instead of Rs 7,000, be required to employ a whole-time vaccinator, for whom there will be enough work to do exclusively within Municipal limits. Apart altogether from the question of sufficiency of work, the employment of a vaccinator is intimately associated with the efficient working of the rules under the compulsory Regulation and, in consequence, with the maintenance of a high standard of vaccination in Municipal areas

2. I would also suggest the desirablity of utilising the services of all Municipal vaccinators as ex-officio registrars of births and deaths. The importance and relevance of tris -- arrangement are obvious.

Yours Sincerely,

To

B. T. Kesavaiengar, Esq., B.A.,
Assistant Secretary to Government,
Bangalore.

* I shall let you know the exact minimum from the past five years work & from the information I have called for, from the Madras Presidency.

The Maharaja of Mysore, Revenue Department,
Bangalore

Sir,

With reference to your letter No. R. 477-84 Ml 185-18-15 calling for certain information regarding vaccination work in the Municipalities, I have the honor to submit herewith a statement showing the details of population, etc.

The Presidents of Nagepali and Srinivasapur Municipalities have not furnished the information yet. They have been again reminded to-day and on receipt of replies from them, they will be submitted

I have the honour to be,
Sir,
your most obedient servant,

Assistant Commissioner,
for Deputy Commissioner,
Kolar District
(Absent from Station.).

Statement showing the mode of conducting vaccination work and appointment of wholetime vaccinators in the Municipalities of Kolar District.

S.No.	Name of Municipalities (Minor and town.).	Population according to the Census of 1911.	Income according to the Budget of 1920-21.	Whether compulsory vaccination has been introduced if so, when ?	Whether or not a fully qualified vaccinator is already employed	If no vaccinator is employed how is the vaccination work conducted	Is the Municipal Council willing to entertain its own vaccinator, if in case the vaccinator has not sufficient work, Whether the Municipal Council is willing to employ him as ex-officio Registrar of Births and Deaths.
	Town --						
1.	K o l a r.....	8184.	22,505.	Yes. from 1913.	Fully qualified vaccinator is employed.		
2.	Bowringpet.	4589.	17,000.	-do- from 1916.	--do--	A woman vaccinator is employed..	
3	Chintamani.....	5768.	12,905.	-do-	from 1913.	A qualified vaccinator is employed.	
4.	Chickballapur...	7763..	14885 . .	-do-	from 1.3.15.	--do---	
5.	Mulbagal.....	2677.	5,210...	-do-	from 1-1-1911.	-No-	The Sub-Assistant Surgeon is looking after the work in the
6.	Sidlaghatta	6512.	6345. ..	-do-	from 1-3-191[illegible]	-do-	

(40)

Sl. No. 2 3 4 5 6

No. The finances of the Council do not permit for the present.

6 Sulagiti (Continued)

The Sub-Assistant Surgon is looking after the work in the town. They are prepared to entrust the work to the Sanitary Maistry who is a--- qualified Vaccinator.

7. (Minor.) Malur.. 4212. 4,089. -do- From 1-1-1911. No. ----do---- No. The council is not in a position to entertain a separate Vaccinator.

8. Goribidnur..2617. 3,112.-do- from 1-3-1913. -do- ----do---- As there are no funds available in the Municipalities the council is not willing to entertain a full--time vaccinator The members pre--sent were of opinion that the vaccination may be conducted by the local Medical Officer as it is be--ing done.

9. Bagepalli. 1.962. 1024. -do-, -do- --do-- -do- .. .. This is a very poor Municipality with an income of R. 1024/- and is not in a position to maintain a -- vaccinator

10.Srinivaspur.3,430. 1,860. -do-from 1-1-1912. -do- ... . This is a poor Minor Municipal --- Council with an income of R. 1860/- and is not in a position to maintain a vaccinator.

11.Gudibanda.. 2,092. 1,550. -do- from 1-3-1913. -do- ---do--- The Minor Municipality has no funds to entertain a whole-time--- vaccinator. Moreover there will not be sufficient work for a whole-time vaccinator.

If no Vaccinator is employed how is the Vaccination work conducted	Is the municipal Council willing to undertake its own Vaccination? If no one the Vaccinator has not sufficient work, whether the municipal Council is willing to employ them as ex-Officio Registrar of Births and Deaths	Remarks.
7	8	9
—	The council have undertaken its own vaccination as well as Registration of births and Deaths. They have got sufficient work.	
—	One vaccinator as well as two for Registration of births and Death is employed	
In first Grantham Division doing the Vaccination work	The Council proposes that the area being unable and the present capacity poor, the existing arrangements might be retained to be continued the Patels of the town are registering the births & Deaths.	
Do	The Council is willing to undertake its own vaccination and also to employ them as ex-Officio Registration of births and Deaths.	
Do	The council is not willing to undertake its own vaccination the Patel or municipal authority may look after the registration of births and Deaths.	
Do	The Council proposes that the existing arrangements may continue

there
different places. As vaccination has been made compulsory in a majority of the Municipal areas, it is evident that in these areas the services of the District Board Vaccinators are being availed of whenever the services of the local Sub Assistant Surgeons are not available for this work This is not a satisfactory arrangement in all cases especially in Municipalities where there is usually a large population. Government are accordingly pleased to direct that all Town Municipalities in the State should immediately employ their own qualified vaccinators for work in Municipal areas and meet the charges on this account from their funds. Arrangements should also be made for the training of sanitary Inspectors in vaccination work. In minor Municipalities which do not employ sanitary Inspectors the Sanitary Maistries should be trained in vaccination work and they should perform vaccinations in that area. But it must be understood that the local Sub Assistant Surgeon is not thereby relieved of his duty to vaccinate children if they are taken to the dispensary.

The Sanitary Commissioner is requested to take necessary further action in the matter in consultation with the Deputy Commissioners of Districts. The present arrangements may however continue temporarily in places where this order cannot immediately be given effect to

A report should be submitted at the end of December next as to the progress made in giving effect to the order.
